

I am writing to petition the FCC not to give LPFM priority over FM translator service. I could not imagine the one radio station I listen to, K-LOVE, being forced off the air. K-LOVE has been a source of encouragement for me during the past six years. I have been an active financial supporter throughout the years while living in both the Portland, OR and San Antonio, TX areas. K-LOVE provides a service that other local stations simply don't provide to the public. I would be deeply saddened if I could not turn on my radio everyday and listen to K-LOVE. This radio station unites Christians nationwide through music, worship, and encouragement through scripture. It also provides news updates throughout the day, as well as, educational pieces on the weekends. K-LOVE is unique in that it is a nation-wide broadcast. Those in California hear the same thing as the listeners in South Carolina. I absolutely believe it is the interest of my local community and the country as a whole to ensure K-LOVE stays on the air in all parts of the country that it broadcasts in.
